

Battery Terminal Grease

DESCRIPTION

Battery Terminal Grease is a special grease which is compatible with plastics and is formulated for the maintenance and care of motor vehicle electronic systems, particularly the battery terminals and electrical connectors.

PROPERTIES

- high level of compatibility with plastics
- good electronic properties
- protects against corrosion
- prevents current leakage
- reduces contact resistance

Complies with the certification for grease in accordance with DIN 51 502: M2C-30

TECHNICAL DATA

Colour	: red		
Grease basis	: lime soap		
NLGI	: 2		DIN 51818
Worked penetration	: 220-230		DIN 51804
Drop point	: 100	°C	DIN ISO 2176
Operating temperature range	: -30 °C to + 60 °C		
Emcor test	: 0/0		DIN 51802

APPLICATION

Used especially for battery terminals, connections and plug connectors in vehicle electronic system.

INSTRUCTIONS

Clean contaminated components and treat with Battery Terminal Grease.

AVAILABLE PACK SIZE

Battery Terminal Grease	10 g	sachet	Part no. 3139 D
	10 g	sachet	Part no. 2119 E-P
	50 g		Part no. 3140 D-GB-I-E-P
	50 g		Part no. 7643 D-RUS-UA
	1 kg		Part no. 3142
	25 kg		Part no. 8872 GB
