

Petrol Stabiliser

DESCRIPTION

Petrol Stabiliser is a modern, ash-free additive mixture that preserves and protects fuel system components. The product has been formulated using state-of-the-art additive and fuel technologies.

PROPERTIES

- protects fuel against oxidation and ageing
- long-term action
- increases operational reliability
- economic because of exact proportioning
- simply handling because of the proportioning bottle
- tested with catalytic converters

TECHNICAL DATA

Basis	:	additive mixture in carrier liquid
Colour	:	blue
Odour	:	characteristic
Density at 15 °C	:	0.75 g/cm ³
Regulation on flammable liquids (Germany)	:	A II
Flash point	:	+40 °C
Pour point	:	-45 °C

APPLICATION

Added to the fuel of all 2-stroke and 4-stroke petrol engines. For protecting the engines of decommissioned motorcycles, classic cars and engine-powered garden equipment.

INSTRUCTIONS

25 ml (added by dosing device) is sufficient to preserve 5 litres of fuel. Before putting into storage, add the appropriate amount to the tank and run the engine for approx. 10 minutes.

AVAILABLE PACK SIZE

Petrol Stabiliser	250 ml	dosing bottle	Part no. 5107 D-F-NL
	20 l		Part no. 5103
