

Racing Leather Combination Care

DESCRIPTION

Racing Leather Combination Care is a treatment emulsion manufactured from high-quality natural and synthetic substances that can be used for handling all types of smooth leather. New leather surfaces are given a silky, lustrous protective layer. The structure, feel and elasticity of the leather are maintained and protected from dirt and wear in everyday use.

Older and potentially slightly worn leather surfaces become smoother and more supple and are given a silk-matt luster through the use of Racing Leather Combination Care. Through regular use of the product, the visual appearance of the leather is enhanced, premature bleaching out is prevented and the service life of the material is prolonged. As Leather Care does not contain any dyes, it can be used on all colored leathers, including very light tones. Light-colored leather surfaces soiled by dark stains should be cleaned using an appropriate dosage of LIQUI MOLY Universal Cleaner, part no. 1653, before being treated with Leather Care.

PROPERTIES

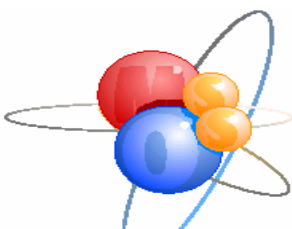

- Maintains the suppleness of leather components
- Protects leather components from cracking
- Good long-term protection

TECHNICAL DATA

Base	: Waxes, silicone emulsions, glycerin, additives and fragrances, emulsifiers;
Color	: white
Form	: cream
Viscosity	: medium
Density at +20 °C	: 1.005 g/cm ³ DIN 51757
pH value	: 7.4 ± 0.5

AREAS OF APPLICATION

Racing Leather Combination Care was developed specifically for handling clothing (smooth leather), as well as leather surfaces of bags, luggage, furniture or leather equipment in the automotive sector.

PRODUKTINFORMATION

APPLICATION

If required, clean the leather surfaces to be treated and let dry. Shake Racing Leather Combination Care vigorously before use. Next, pour onto a soft cloth or rag and, using circular motions, apply thinly and uniformly under light pressure. Polish off after briefly allowing it to work. Regular application will result in the optimum care and appearance.

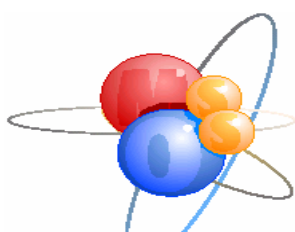

Not suitable for suede. Before application on the entire area, we suggest that you check Leather Care for compatibility with the material on a hidden area.

AVAILABLE PACK SIZES

Racing Leather Combination Care	250 ml	Part no. 1601
